LEGEND

	Harvest area		Logging Roads
	RPL Red Paint Line		BPL Blue Paint line
	Wet Lands		Survey Corner
	PVT Private Lands		County Forest Rd.
	Berm		Reserve Area

- Logging operations are restricted to the dates from July 15TH through the following Spring Break Up, ~March 15 and only when the ground is dry enough or frozen to prevent rutting. If rutting occurs frozen ground harvesting restrictions may be imposed.
- Within the harvest area all 1" and larger diameter ironwood and balsam fir will be cut and all trees marked with orange marking paint will be harvested regardless of merchantability. Snags must remain standing unless they are a safety issue for the harvesting operation. Damage to residual regeneration must be minimized. Utilization is 100" to a 4" top or as bid as stated above for whole tree. If harvesting whole tree, every 10th tree top, the portion above the 4" standard pulpwood stick, must remain in the woods and evenly scattered over the sale area. No whole tree skidding.
- Any trees felled into the wetland areas either within the sale or adjacent to the sale must be pulled back onto high ground before limbing and bucking occurs. No equipment will be allowed to operate in any wet areas within or adjacent to the timber sale.

- Access is limited to current logging road system. Landing sites must have County Forest Dept. approval. All roads and landings must be leveled and free of slash and must be blocked with a berm or rocks at the end of each harvest season and at sale completion. Bond money will not be returned until all trail/road rehabilitation is complete.
- Wood decked along the Shingle Mill Road must be far enough off the road as to not create a hazard to motor vehicles. Caution signs must be posted by the Harvesting Contractor on the Shingle Mill Road when active harvesting occurs.
- All applicable BMP's must be followed during all phases of the sale.
- ***12 Cords of hardwood pulpwood will be cut, skidded and hauled to the Enterprise ATV Campground by the contractor at no cost to the County Forestry Dept. Operational cost to produce and deliver 12 cords of hardwood need to be built into the bid for this timber sale.
- All items of the Oneida County Timber Sale Contract also apply.
