ADDITIONAL REGULATIONS:

- a. **Logging operations are restricted to the dates from July. 15TH through the following Spring Break Up, ~March 15 and only when the ground is dry enough or frozen to prevent rutting. If rutting occurs frozen ground harvesting restrictions may be imposed. Slash heights must be 2 ft. or less within 50' of Shingle Mill Road and South Exit Road and must be pulled back 15' behind the tree line along the Roads. No other slash height restrictions.**
- b. Within the harvest area all 1" and larger diameter ironwood and balsam fir will be cut and all merchantable aspen and all trees marked with orange marking paint will be harvested regardless of merchantability. Canopy gap areas have been established on this sale and are indicated by purple painted trees. Cut all trees greater than 1" diameter, except red oak, within the gaps including purple painted trees, leaving paint visible on the stump. Snags must remain standing unless they are a safety issue for the harvesting operation. Damage to residual regeneration must be minimized. Utilization is 100" to a 4" top or as bid as stated above for whole tree. If harvesting whole tree, every 10th tree top, the portion above the 4" standard pulpwood stick, must remain in the woods and evenly scattered over the sale area. No whole tree skidding.
- c. Any trees felled into the wetland areas either within the sale or adjacent to the sale must be pulled back onto high ground before limbing and bucking occurs. No equipment will be allowed to operate in any wet areas within or adjacent to the timber sale.
- d. Access is limited to current logging road system. Landing sites must have County Forestry Dept approval. All roads and landings must be leveled and free of slash and must be blocked with a berm or rocks at the end of each harvest season and at sale completion. No trees are to be felled onto or across Shingle Mill or South Exit Road. Bond money will not be returned until all trail/road rehabilitation is complete.
- e. **NOTE: Shingle Mill Road** is a snowmobile route during the winter. The snowmobile route must be kept snow covered during the snowmobile season. This route must remain free of equipment and in a safe usable condition at all times. Wood decked along the road must be far enough off the road as to not create a hazard to motor vehicles. Caution signs must be posted by the Harvesting Contractor on the Shingle Mill and South Exit Roads when active harvesting occurs.
- f. All applicable BMP's must be followed during all phases of the sale.
- g. ***12 Cords of hardwood pulpwood will be cut, skidded and hauled to the Enterprise ATV Campground by the contractor at no cost to the County Forestry Dept. Operational cost to produce and deliver 12 cords of hardwood need to be built into the bid for this timber sale.
- h. All items of the Oneida County Timber Sale Contract also apply.
