Timeline

- Fall start date better than summer – not trying to change over during busy time
- Training topics to be covered when each department is trained
  - When to activate MABAS
  - How to Activate MABAS
  - How to respond to activation
  - Unified Radio Protocols for county
  - Common terminology
  - Channel Assignments (Fire Ground Channels)
- Department training will be 1 evening (approx. 2-3 hours) with a drill at the end
- Department training to be done by local personnel.
- Dispatch training will be done by MABAS WI personnel with local personnel involved as well. The goal is to bring trained dispatchers up to train dispatch to improve credibility of the training.

IFERN Radio Channel

IFERN has now gone live on the radio tower at the Law Enforcement Center. It is also in most of the department radios in the county (Base, Mobile, & Portable) Ifern is NOT a repeater frequency. At this time it is simplex only. This may change down the road. On February 24<sup>th</sup> at 18:00 we will be conducting radio testing with the departments. Each department will choose 2 locations in addition to their primary station for testing. They will be testing EMR1, IFERN, and MARC1 on their base radio, mobile radio, and a portable radio. This radio testing is expected to take 2-3 hours. An email will be forthcoming from Wayne with schedule and procedures for testing. Ken Kortenhof and Andy Beach will be working in dispatch during the testing.

What Calls in the past would have been applicable for MABAS?

Three Lakes identified 2 calls that would have been appropriate for using MABAS

1. Russellwood Fire – 4 cabins on a windy point burned, fire jumped lake and started a brush fire that had to be accessed from other side of chain of lakes.
2. MCI – 3 vehicle accident Hwy 45 North and Maple Lake Dam Road – multiple critical Patients, Multiple Walking Wounded – Med 10, Med 11, Med 1, Med 2, ER 91 transported patients, 2 helicopters flew Patients from Eagle River Airport

Newbold Identified 2 calls that would have been appropriate for MABAS?

1. Swamp Fire
2. Structure Fire - 6057 Wildwood Lake Circle

Dispatch & IFERN

No one is present tonight from dispatch. If MABAS 114 is going to succeed it is important that we get dispatch on board with what we are trying to do. We need to work with them and make sure they are involved as much as possible.

Help your neighbors. Even if they aren't working on their cards and agreements at this time they can sign your cards if they are part of your resources you would be calling on. Their assistance would still be covered under existing mutual aid agreements.

Some of the cards need to be corrected for common terminology. Wayne has printed off copies of everyone's cards and made notations on the corrections needed. He has not changed any of the cards, but simply clarified common terminology to make the cards more uniform.

#### Open Discussion – New Items

By Laws – MABAS Wisconsin has a template for by laws. Wayne will send out a copy of the proposed bylaws showing the changes in the template in a different color via email for members to review.

Email communication for minutes seems to be working well. An email list is going around, please check your email address on the list.

Next meeting will be April 14<sup>th</sup> at 19:00 at Newbold Fire Department Station 1. Address is 4588 Hwy 47 North

#### Interdivisional Aid Requests

It is now required by Wisconsin Emergency Management that all firefighters responding to interdivisional aid requests are at a minimum State Certified I. This is not required for mutual aid within the division.

#### Action Items

1. Prep for Radio tests - bring portable radios
  2. GPS coordinates for testing locations needed – email testing locations to Ken as soon as possible
