

51 **1.5 GENERAL PROVISIONS**

52  
53 (1) **AREAS TO BE REGULATED**

54 This ordinance regulates all areas that would be covered by the regional  
55 flood or base flood-as shown on the Flood Insurance Rate Map (FIRM) or  
56 other maps approved by DNR.

57 Base flood elevations are derived from the flood profiles in the Flood  
58 Insurance Study- (FIS) and are shown as AE, A1-30, and AH Zones on the  
59 FIRM. Other regulatory zones are displayed as A and AO zones. Regional  
60 Flood Elevations (RFE) may be derived from other studies. If more than  
61 one map or revision is referenced, the most restrictive information shall  
62 apply.  
63

64 (2) **OFFICIAL MAPS & REVISIONS**

65 The boundaries of all floodplain districts are designated as A, AE, AH, AO or  
66 A1-30 on the maps based on the Flood Insurance Study (FIS) listed below.  
67 Any change to the base flood elevations (BFE) or any changes to the  
68 boundaries of the floodplain or floodway in the FIS or on the Flood  
69 Insurance Rate Map (FIRM) must be reviewed and approved by the DNR  
70 and FEMA through the Letter of Map Change process (see s.8.0  
71 *Amendments*) before it is effective. No changes to RFE's on non-FEMA  
72 maps shall be effective until approved by the DNR. These maps and  
73 revisions are on file in the office of the Planning & Zoning Department,  
74 Oneida County. If more than one map or revision is referenced, the most  
75 restrictive information shall apply.
