**Requests from Towns for mapping Town ordinances pertaining to sex offenders residency restrictions.**

Both Romportl and Desmond led a discussion on the subject specifically requests from Towns to Oneida County Land Information Office to provide mapping services. Towns are adopting their own standalone ordinances which may be different from one another. Romportl met with Desmond and Sheriff Hartman and found out this is not a county or state ordinance and the county is not responsible to enforce town ordinances. Romportl expressed reservations about the amount of staff time that could potentially be consumed in providing such mapping services and the potential liability. Desmond indicated some of these ordinance are being legally challenged and mentioned there is pending legislation for placement of violent sexual offenders that the County may be responsible for. Since this is outside the normal mapping services the office provides to the Towns, Romportl asked for direction from the Committee if the office should provide this mapping service, and if there should be a charge to the Towns. Mark Hartzheim (Minocqua Town Chair) joined the discussion and addressed to the Committee. He stated that the Minocqua Ordinance was drafted with the help of

attorney's, and the Town would be responsible for the enforcement and interpretation of their ordinance as drafted. He stated that the Town is asking the Oneida County Land Information to map setback buffers around parcels as designated by the Town of Minocqua.

Motion/Paszak/Oettinger to allow the Land Information Office to process Town requests to map sexual offender residency placement buffers, charge fees based on amount of time to complete request and to develop a policy in conjunction with Corporation Counsel to address the processing requirements and develop an indemnification clause to protect the County.
